DETAILED ACTION

Allowable Subject Matter

1. **Claims 1-14** are allowed.
2. The following is an examiner's statement of reasons for allowance:

In terms of claim 1, the prior art of record does not teach alone or in combination an electric-field distribution measurement method including a judgment step of judging the phase of the electric-field signal which changes temporally, and the electric-field distribution measurement method being characterized in that the electric-field distribution is measured using the fact that the phase depends on the electric-field direction at the laser-beam irradiation position, in combination with all other elements in claim 1.

As to claims 2-7, the claims are allowed as they further limit allowed claim 1.

In terms of claim 8, the prior art of record does not teach alone or in combination an electric-field distribution measurement apparatus including a phase-judgment means to which the temporally-changing electric-field signal output from the detection/conversion apparatus is input, and the electric-field distribution measurement apparatus being characterized in that it measures the electric-field direction distribution using the fact that the phase depends on the electric-field direction at the laser-beam irradiation position, in combination with all other elements in claim 8.

As to claims 9-14, the claims are allowed as they further limit allowed claim 8.

Art Unit: 2829

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
